Preface

This list includes theses accepted by Canadian universities between spring 1947 and spring 1960 inclusive. It covers the period between *Canadian graduate theses in the humanities and social sciences 1921-1946* and *Canadian theses* which began annual publication with the academic year 1960/61. Although the 1921-1946 list is restricted to theses in the humanities and social sciences, the 1947-1960 list includes all subjects, as do the annual issues from 1960/61 on.

The list is compiled from information supplied in almost all cases by the libraries of the universities. The editor gratefully acknowledges the cooperation of the participating institutions.

Names of universities in the list are those in use during the period 1947-1960. Theses presented to colleges affiliated to degree-granting universities are listed with those of the university to which the college was affiliated at the time.

The arrangement in broad subject divisions is based on the 17th edition of the Dewey Decimal Classification. The numbers in parentheses accompanying the subjects listed in the table of contents indicate the Dewey classes covered by the headings.

Préface

Cette liste comprend les thèses acceptées par les universités canadiennes de 1947 à 1960 inclusivement. Elle recouvre la période comprise entre la publication de l'ouvrage *Thèses des gradués canadiens dans les humanités et les sciences sociales 1921-1946*, et celle de la publication annuelle, depuis 1960/61, de l'ouvrage *Thèses canadiennes*. Même si la liste des années 1921-1946 est restreinte aux thèses sur les sciences humaines et sociales, celle des années 1947-1960 englobe tous les sujets, comme d'ailleurs les publications annuelles depuis 1960/61.

Nous avons préparé cette compilation d'après les renseignements fournis, dans presque tous les cas, par les bibliothèques des universités. La rédactrice remercie les institutions participantes de leur collaboration.

Les universités ont gardé leur nom en vigueur de 1947 à 1960. Vous trouverez les thèses présentées aux collèges affiliés à une université sous le nom de l'université même.

Le classement par sujets, en grandes divisions, se fonde sur la 17^e édition de la classification décimale Dewey. Les numéros entre parenthèses qui accompagnent les sujets mentionnés dans la table des matières, indiquent les classes de Dewey que représentent les rubriques de la liste.
